

Sick Children

Parents are asked not to send children to school when they have an infectious or contagious illness, have profuse catarrh, have had inadequate sleep or are off food and will not cope with a day at school.

Please cover any injuries that pose an infection risk with plaster bandage.

Please advise staff of any injuries the child has had before school begins.

Please advise staff of any new circumstances which may affect that child's behaviour.

In the event of a child becoming sick at school, staff will offer water and encourage the child to sit in the book corner. Food will be offered. If the child is still unwell after 10 minutes, staff will contact the parents/guardians to collect him/her.
